- Exceptional resolution
5 MP camera
- Ready to use
Out of the box
- Large field of view
20 cm x 24 cm
- Innovative cabinet
Built in UV transilluminator

simply reliable

ENDURO™ GDS

GEL DOCUMENTATION SYSTEM

The Enduro™ GDS is an ideal complement to the Labnet Molecular Biology Line. It has many standard features not offered in more expensive imagers. The Enduro™ GDS comes completely assembled. You only need to attach USB and install the software to a PC from the included USB drive.

There is never a need to touch the high resolution 5MP camera, as the focus is pre-set and a simple click of "Autoexpose" on software icon sets the ideal shutter speed and aperture. The unique integrated cabinet has a large 20 x 24 viewing area with a safety UV shut-off switch, and the software controlled UV light automatically shuts off the UV light when finished.

TECHNICAL SPECIFICATION

Camera	5MP (2592 x 1944), 10 bit scientific grade sensor
Lens	8mm, fl. 4 hands free lens with Smart Capture technology
Cabinet	Built in UV transilluminator with safety cut-off switch
Dimensions	34.6 x 31.1 x 68.6 cm
Weight	21.4 kg

PC Specifications:
