

CORNING'S FAMILY OF BRANDS IS GROWING!

We are pleased to present the Corning Ordering Guide which includes product ordering details for our new family of brands.

Through acquisition and ongoing R&D investment, Corning now offers a more comprehensive range of premium, innovative laboratory products and solutions for a wide spectrum of life science applications. Our trusted, quality brands, backed by technical expertise, provide researchers with better ways to advance their research from the beginning of their process to the end.

In this part of guide, you will be able to find our complete range of Laboratory glassware and plasticware under Corning premium brands such as Corning®, Costar®, Gosselin™ and PYREX®.

To provide complete workflow solutions to researchers in Life Sciences, we are increasing our portfolio of solutions and including high quality Pyrex Laboratory Glasswares, reusable plastics and Gosselin range of Microbiology range of products in this guide

Through these brands, we are committed to meeting customers' unique and changing needs with original solutions for today's emerging life sciences technologies. Our dedication to quality, technology and innovation continues to enable us to produce the world's most comprehensive line of life science tools.

4 Beginning-to-end Solutions Genomics

From sample collection to storage, extraction and purification, Corning offers high-quality, innovative consumables and kits to support genomics workflows. Our range includes reagent kits, Axygen® brand magnetic bead-based kits, and our unique IMAG™ separation devices, all of which are optimized to make Next-Gen Sequencing library preparation processes more efficient.

5 Beginning-to-end Solutions Microbiology

From sampling and preparation to bacteria growth and analysis, Corning has a range of products and brands to provide a complete solution for microbiology and quality testing. In addition, our Gosselin™ brand products are optimized for both Food and Beverage and Environmental testing laboratories, complying with international safety standards and includes features to ensure traceability.

6 Glassware Solutions for Laboratory

In Science, research can take many forms, from synthesizing compounds to building computational models or gathering and analyzing data using a wide variety of instruments and techniques. Corning has been a valued supplier to chemists for nearly a century since the introduction of PYREX® low expansion borosilicate glass that is now the quality standard for labware worldwide. Recently Corning also introduced reusable plasticware range for Laboratory use.
